

At RINGSPANN, we believe that environmental protection and sustainability are important for the long-term success of our company. For this reason, we pursue the following environmental policy and environmental goals:

## Environmental Protection and Sustainability

We are actively committed to reducing our environmental impact and promoting sustainable solutions in all areas of the company.

## Combination of Economics and Environmental Protection

We strive to implement measures that both protect the environment and increase our profitability.

## Resource Efficiency

We aim to use modern production processes and technologies to increase our resource efficiency and thus reduce our environmental impact.

## Sensitization and Motivation of our Employees

We sensitize our employees to the importance of environmental protection and sustainability and encourage their motivation to actively participate in the implementation of appropriate measures.

### Communication and Transparency

We share relevant information on the topics of environmental protection and sustainability with our employees, business partners and the public.

### Environmental Law and Binding Obligations

We undertake to comply with all environmental and regulatory requirements and inform ourselves in good time about upcoming changes. We also comply with the binding obligations relating to our environmental management system.

### Continuous Improvement

We strive to continuously improve our environmental performance. For this reason, our processes are subject to a regular cycle of planning, implementation, review and adjustment.

### Certification

We reaffirm our commitment to implementing our environmental policy and meeting our environmental goals by regularly having our environmental management system certified in accordance with the international environmental standards ISO 14001 and EMAS.
